Education

Purdue University User Experience Design, BS
August 2017 - May 2021

Projects

United Airlines Cargo UX Design Student

August 2018 - Present West Lafayette, IN

Design and creation of an extensive product tracking mobile application.
Sketched, crafted wireframes, and created low and high fidelity prototypes.

Microsoft Academic UX Design Student

January 2018 - May 2018 West Lafayette, IN

Compared website redesign against older version to assess learnability, usability, overall experience, and support for exploratory search.

Performed usability testing, survey analysis, as well as ideated new implementations, sketched, and crafted lo-fi prototypes.

Coursework

PUUXD Learning Studio 2 A Day at the Museum

November 2018 West Lafayette, IN

Designed cultural probes, conducted interviews, and bodystormed a museum exhibit layout for Scandinavian Modernism.

Ideated, sketched, and crafted lo-fi prototypes for various museum touchpoints, including tablet-based applications, navigational, informational signage, and an exhibit layout.

PUUXD Learning Studio 1 Embodied Shopping

March 2018 West Lafayette, IN

Ideated and sketched interface designs for a mobile grocery store game application.

Conducted interviews, performed contextual inquiry, and usability tested.
